

## Gary Heasley

(216) 233-3231

[garyheasley@mac.com](mailto:garyheasley@mac.com)

Gary Heasley has held leadership roles in companies in several metals and manufacturing sectors including fabrication, powder metals, long products, flat products, scrap processing and recycling, titanium, metals processing and distribution.

Mr. Heasley has led and advised companies through operational and financial turn-arounds, strategic growth initiatives, post-acquisition integration and performance optimization processes. Recently, Mr. Heasley has been working with industrial companies and private equity firms in evaluations of potential strategic acquisition targets and performance improvement initiatives.

Previously, Mr. Heasley led a \$500 million portfolio of businesses with 35 locations in seven countries for Carpenter Technology Corporation. At Steel Dynamics, Inc. Mr. Heasley served in multiple roles including Chief Financial Officer, President of SDI's New Millennium Building Systems manufacturing company and Senior Vice President of Strategic Planning.

Mr. Heasley's experience includes serving as the Chief Executive Officer and Chief Financial Officer of a steel producer in Asia and advising metals and industrial companies as an investment banker with Keybank Capital Markets. At Ernst & Young, Mr. Heasley served audit clients and supported clients in mergers and acquisitions and capital raising by performing due diligence, complex financial modeling and analysis.
